Sponsored by the Commonwealth Prevention Alliance through funding made available by the Pennsylvania Commission on Crime and Delinquency (PCCD)

Break the Connection.

Stop Prescription Drug Abuse Before It Starts.

In the midst of America's epidemic of overdoses from painkillers and heroin, Pennsylvania's overdose rate is currently higher than the national average.

- In three years, the number of Pennsylvanians who overdosed on heroin rose 238%.
- 1 in 10 young adults ages 18-25 used prescription drugs non-medically last year.

The Commonwealth Prevention Alliance is committed to educating Pennsylvanians about the dangers of these drugs. We urge you to visit PAStop.org for more information. Break the connection.
