

A young woman with blonde hair is shown in a close-up, looking upwards and to the right with a thoughtful expression. She is resting her chin on her hand. The background is a blurred pharmacy shelf with various bottles. The text is overlaid on the left side of the image.

Care Enough **Not** to Share.

Prescription safety
begins at home.

More than any other group, 18-25 year olds in PA report misusing prescription drugs and sharing them with friends. Whether they got them from someone else, with or without permission, this action is illegal and unsafe.

Keep your medications
safe and secured.

Though it may seem harmless to share
prescription drugs with a friend or
family member, doing so is illegal and can
be risky.

Care Enough **Not** to Share.

Prescription safety
starts at home.

Sharing prescription drugs with family
or friends, even when you intend to help
them, is a dangerous misuse that could
cause risky consequences.

Care Enough **Not** to Share.

Dispose of old or expired medications safely.

If you have medications that have passed their expiration date, take them to an authorized Rx take-back location, use a disposal bag, or take them to your pharmacist, who can dispose of them safely. You should never throw away medications in the garbage or flush them down the toilet.
