

Substance Use Disorder is Everyone's Business.

Anyone can become addicted. Anyone.

Does your company have an Employee Assistance Program (EAP) or offer education or testing for substance use disorders? Besides assisting those directly affected, the benefits of a stable, supportive workplace are many:

- Reduce employee turnover
- Reduce lost productivity and damaged goods
- Reduce insurance premiums, claims and medical expenses
- Comply with PA state laws and regulations

PAStop offers materials and resources to help you with workplace SUD training and assistance.

Anyone can make the difference.
It's just good business.
